

CHRIST
EPISCOPAL
SCHOOL

Dear CES Middle School Parents:

Our Chromebook Store, hosted by CDW-G, is online and ready for your orders. Please visit the store soon to purchase your student a Chromebook for the coming academic school year: <http://www.cdwg.com/cesrockville.org>.

Please note the instructions below to guide you through this process:

Step 1: Browse and choose from three different brands/models (ASUS, HP, Acer)

Each satisfies the basic technical requirements of our 1:1 program. *Warranty:* Please make sure you add the additional K-12 3yr accidental damage warranty offered. Check the box choice when ordering the model you choose.

Step 2: Select the required product Google EDU Management Console License.

This allows CES IT to manage/control/configure/update the Chromebook.

Step 3: Select the required CDWG EDU White Glove Service.

This will automatically join the Chromebook to the CES domain when it is turned on, and is a security measure to make sure the Chromebook is secure and not altered or configured improperly.

Step 4: OPTIONAL - We highly recommend to having a case and an extra charger for your child's Chromebook. You may purchase those at the same time at the CES Store, or wherever you prefer.

Choose the "Guest Checkout" option when you're done shopping and ready to purchase the items in your cart, adding payment and home shipping information. Our senior account manager, Chris Hegan at CDW-G (866-806-4964, chriheg@cdw.com) can answer any technical/purchasing questions you may have and push through any confusing/problem order, his contact info is also at the bottom of the store page.
